

Analyst – Private Equity

SeaFort Capital is a private equity firm pursuing a value-oriented buyout strategy. SeaFort takes a partnership approach with management teams to invest in lower-mid-market Canadian companies in the business services, niche manufacturing, industrial, and distribution sectors. SeaFort was founded in 2012 by a small group of private investors including members of the Sobey and McCain families.

SeaFort Capital is seeking an Analyst to work in its Halifax office. The Analyst will be an integral member of the investment team and will work closely with the Associates and Partners across a mix of opportunities for existing portfolio companies and new investments. The Analyst will work on small deal team and will be exposed to the full spectrum of private equity investing including evaluation of new platform investments, identification and execution of add-on acquisitions, investment thesis development, portfolio management, and deal execution. We hire personable, intelligent, self-starters who exhibit professionalism and exceptional analytical, organizational and communication skills.

This role is appropriate for candidates with up to three years of work experience.

Responsibilities:

- Support the screening, diligence and execution of new investments
- Lead and support industry research initiatives
- Work with existing portfolio companies to monitor performance and provide support
- Develop presentations for SeaFort's investment committee and outside parties
- Build financial and operational models
- Develop a network of deal sources, intermediaries, and advisors

Qualifications:

- 1 to 3 years relevant experience (private investing, M&A, corporate development, etc.)
- Bachelor's degree in any subject, strong preference for finance-related studies
- Preference for CFA completed or in progress
- Strong understanding of accounting principles
- Exceptional attention to detail
- Strong work ethic, a hunger to learn and a passion for business and investing
- Confident and able to work independently
- Strong written and verbal communication skills
- High proficiency with PowerPoint, Word, and Excel
- The ability to produce high quality deliverables for consumption outside of the organization
- Deep sense of curiosity and an ability to think clearly in complex situations
- French language skills would be valuable but not required

SeaFort Capital is committed to diversity and equitable access to employment opportunities based on ability.

Interested applicants can forward resumes to Sue Urquhart at info@seafortcapital.com by **Monday, March 22nd, 2021** and complete the following form: <https://bit.ly/3cPaejT>.
